

# Super Tuna Color Guide

All floss is 3 strands.  
"Super" and the fish's face are in DMC 310 (black)  
All other parts of the tuna are in DMC 517 (blue)

# Super Tuna Bookmark Stitch Guide

- Back stitch “super” with a single row of back stitches
- Satin stitch the tail horizontally and the arch of the fish vertically.
- As you reach each fin, use straight stitches to make their shape, either two or three stitches
- Back stitch the nose, and belly of the fish, pausing to straight stitch the inner fin when you reach it.
- Back stitch the three detail lines near the tail
- Back stitch the smile, then use a small straight stitch for the eye
